

VIVO

Integrated cable management

Integrated cable management

Vivo is an advanced desking system with contemporary styling and sleek, clean cut lines that lends itself to clear thinking and effective decision making. Removable leg covers with integrated wire management in the leg riser combine with the dual access cable cut-outs in the top corners of the modesty panel for complete cable management.

Featuring durable 25mm melamine worktops, heavy duty silver cantilever frames with height adjustable feet and fully integrated cable management designed to improve office aesthetics and safety, Vivo is both practical, visually pleasing and will enhance any office space, as well as improving your network with efficient data flow and full cable protection functionality.

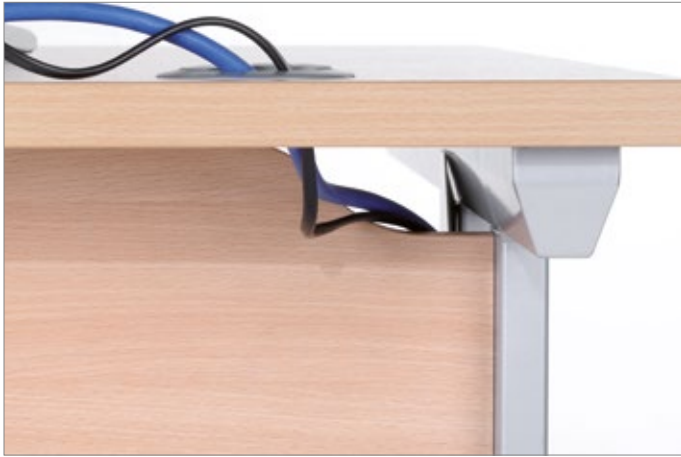

Cable Management

The cables are concealed in the legs to prevent loose cables underneath the desk, providing the perfect solution to all cable management requirements

Leg Covers

The desk legs have removable leg covers that allow easy and quick access to the cables when needed and the cables can also be passed from one desk to another

Cutouts

Cut outs in 18mm back panels allow cables to pass directly through to the vertical cable managed legs to ensure complete cable control

25mm Desktops

Featuring durable 25mm melamine worktops available in five finish options, with a choice of screen styles, sizes and colours to complement the range
